|----------------------|-----------------------|
| <b>Date</b>          | 4 July 2026           |
| <b>Team ID</b>       | Your Team ID          |
| <b>Project Name</b>  | HDI Prediction System |
| <b>Maximum Marks</b> | 2 Marks               |

### Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

| Phase of Journey                                                            | Stage 1 – Data Collection                                                                                                                           | Stage 2 – HDI Prediction                                                                                                                                             | Stage 3 – Decision Making                                                                                                                                      |
|-----------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Actions</b><br><i>What does the customer do?</i>                         | <ul style="list-style-type: none"> <li>• Enter Life Expectancy</li> <li>• Enter Education Details</li> <li>• Enter GNI per Capita</li> </ul>        | <ul style="list-style-type: none"> <li>• Click Predict Button</li> <li>• View Predicted HDI Category</li> <li>• Check Accuracy</li> </ul>                            | <ul style="list-style-type: none"> <li>• Analyze Results</li> <li>• Identify Development Gaps</li> <li>• Plan Improvements</li> </ul>                          |
| <b>Touchpoint</b><br><i>What part of the service do they interact with?</i> | <ul style="list-style-type: none"> <li>• Web Application</li> <li>• Input Form</li> <li>• Dataset</li> </ul>                                        | <ul style="list-style-type: none"> <li>• ML Prediction Model</li> <li>• Prediction Dashboard</li> <li>• Result Screen</li> </ul>                                     | <ul style="list-style-type: none"> <li>• Reports</li> <li>• Graphs &amp; Charts</li> <li>• Recommendation Section</li> </ul>                                   |
| <b>Customer Thought</b><br><i>What is the customer thinking?</i>            | <ul style="list-style-type: none"> <li>• Is my data correct?</li> <li>• Will the prediction be accurate?</li> <li>• Is this easy to use?</li> </ul> | <ul style="list-style-type: none"> <li>• What is the predicted HDI?</li> <li>• Which factor influenced the result?</li> <li>• Can I trust the prediction?</li> </ul> | <ul style="list-style-type: none"> <li>• How can HDI be improved?</li> <li>• Which sector needs attention?</li> <li>• What actions should be taken?</li> </ul> |
| <b>Customer Feeling</b><br><i>What is the customer feeling?</i>             | <ul style="list-style-type: none"> <li>• Curious</li> <li>• Hopeful</li> <li>• Interested</li> </ul>                                                | <ul style="list-style-type: none"> <li>• Excited</li> <li>• Confident</li> <li>• Satisfied</li> </ul>                                                                | <ul style="list-style-type: none"> <li>• Informed</li> <li>• Motivated</li> <li>• Ready to take action</li> </ul>                                              |
| <b>Process Ownership</b><br><i>Who is in the lead on this?</i>              | User / Data Provider                                                                                                                                | Machine Learning System                                                                                                                                              | Government / Policymaker / Researcher                                                                                                                          |

|                                                               |                                                                                                                                       |                                                                                                                                           |                                                                                                                                                        |
