

Project Executable Files

Date	7 July 2026
Team ID	xxxxxx
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	3 Marks

Project Executable Files

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes/No)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	NA (Uses CSV dataset; no database)
5	Environment configuration file (.env.example or similar)	No
6	Deployed application URL (if hosted)	No
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA
8	Dockerfile / Containerization config (if applicable)	NA
9	Test files and test results	Yes
10	Demo video or walkthrough (if required)	Yes

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

HDI-Prediction/

|— app.py

|— HDI.pkl

|— requirements.txt

|— README.md

|— HDI_Dataset.csv

|— templates/

| |— index.html

| |— result.html

|— static/

| |— css/

| |— images/

| |— js/

|— notebooks/

| |— HDI_Model_Training.ipynb

|

|— test_results/

| |— prediction_results.pdf

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	https://hdi-wellbeing-project.onrender.com/
Login Credentials (Demo)	Not Required
Platform / Hosting Provider	Render
Repository Link	https://github.com/AP24110010307/HDI-WellBeing-Project
Demo Video Link	https://drive.google.com/drive/folders/1PiZxXfOCwv-YuCwojU29b4C71kBT4E9R

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

Prerequisites • Python 3.10 or above • Flask • Pandas • NumPy • Scikit-learn • Pickle

Steps

1. Download or clone the project.
2. Open the project folder in Visual Studio Code.
3. Install the required libraries:

```
pip install -r requirements.txt
```

4. Ensure the following files are available:

- app.py
- HDI.pkl
- templates/index.html
- templates/result.html

5. Run the application:

```
python app.py
```

6. Open a browser and visit:

```
http://127.0.0.1:5000/
```

7. Enter:

- Life Expectancy at Birth
- Expected Years of Schooling
- Mean Years of Schooling
- Gross National Income (GNI) per Capita

8. Click **Predict** to view the predicted HDI score and Human Development category.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Works only with the trained HDI dataset features	Additional features can be added by retraining the model
2	Application is not deployed online	Can be deployed using Render, Railway, or Azure
3	Uses Linear Regression only	Future versions can use Random Forest or XGBoost for improved accuracy
