

Project Initialization and Planning Phase

Date	01 July 2026
Team ID	xxxxxx
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	3 Marks

Problem Statements:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A policymaker responsible for national development planning.	Evaluate the Human Development Index (HDI) of a country.	Analyzing multiple development indicators manually is difficult and timeconsuming.	HDI depends on life expectancy, education, and income factors that must be considered	Confident about making informed policy decisions.
PS-2	A researcher studying global development trends.	Compare the development status of different countries.	Large volumes of socioeconomic data are difficult to analyze efficiently	Human development is influenced by several interconnected indicators.	Better informed about development patterns and challenges.

PS-3	A government official planning welfare programs.	Identify regions or countries requiring development	Development gaps are not always immediately visible.	Health, education, and income levels vary significantly across	Motivated to improve resource allocation and public services.
PS-4	A student or data analyst.	Predict the HDI category of a country.	Manual calculations are complex and prone to errors.	Multiple variables must be evaluated simultaneously to determine HDI.	Satisfied with obtaining quick and accurate predictions.
PS-5	A development organization.	Assess the impact of development initiatives and policies.	Measuring overall human development progress is challenging.	Human development must be evaluated using multiple dimensions rather than income alone.	Confident in making evidencebased decisions.
