

Problem-Solution Fit

Date	01 July 2026
Team ID	xxxxxxx
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	5 Marks

Problem-Solution Fit:

5. AVAILABLE SOLUTIONS PROS & CONS [AS]

Available Solutions:

- Manual HDI calculations
- Spreadsheet-based models
- Statistical reports
- Government databases

Pros:

- Reliable data sources
- Historical records available
- Widely used and accepted

Cons:

- Time-consuming
- Difficult to interpret
- No instant prediction capability

7. BEHAVIOR + ITS INTENSITY [BE]

- Frequently analyze development data
- Regularly compare countries
- Depend on accurate information
- Use multiple indicators for assessment
- Seek updated data for decision making

8. CHANNELS OF BEHAVIOR [CH]

ONLINE

- Government portals
- Research websites
- Data repositories
- Educational platforms

OFFLINE

- Academic research
- Policy meetings
- Development reports
- Government publications

6. CUSTOMER LIMITATIONS [CL]

- Limited technical knowledge
- Lack of data analysis expertise
- Time constraints
- Limited access to analytical tools
- Budget limitations
- Dependence on manual processes

9. PROBLEM ROOT / CAUSE [RC]

- Multiple indicators affect HDI simultaneously
- Large datasets are difficult to analyze manually
- Human assessment requires subjective judgment
- Traditional methods are time-consuming
- Lack of real-time insights

10. YOUR SOLUTION [SL]

HDI Prediction System

A Machine Learning and Flask-based HDI Prediction System using:

- Life Expectancy
- Mean Years of Schooling
- Expected Years of Schooling
- GNI Per Capita

Features:

- HDI Score Prediction
- Development Category Classification
- Data Visualization
- Fast and Accurate Results
- User-Friendly Interface

1. CUSTOMER SEGMENTS [CS]

- Policymakers
- Researchers
- Government Officials
- Development Organizations
- Students & Data Analysts

2. PROBLEMS / PAINS + ITS FREQUENCY [PR]

- Difficulty analyzing multiple development indicators
- Time-consuming manual HDI assessment
- Limited understanding of development trends
- Frequent need for development evaluation

3. TRIGGERS TO ACT [TR]

- Need to assess a country's development level
- Policy planning and decision making
- Research and comparative analysis
- Monitoring human development progress

4. EMOTIONS BEFORE / AFTER [EM]

Before:

- Confused
- Uncertain
- Overwhelmed

After:

- Confident
- Informed
- Satisfied
